

Dr Nikolaos Papadimitriou obtained his Diploma (5-year studies) in Chemical Engineering from the National Technical University of Athens (NTUA). He has also a Master's Degree in "Energy Management and Production" (NTUA). He performed doctoral studies in the field of Materials Science, in the National Center for Scientific Research "Demokritos" (NCSR) and the subject of his PhD thesis was the "investigation of gas storage processes in solid materials" PhD, Scientific Personnel. Dr. Papadimitriou has been working as a research associate in NCSR and Leiden University.

His research interests include thermodynamics, molecular simulation and energy storage. He has published more than 20 articles in scientific journals and books and he has been awarded the IUPAC Poster Prize (2009). He is currently working for the PPC.
